

Speaker: Kevin Darbelnet

Bio:

Kevin Darbelnet is the founder of Strategy Matrix LLC and a former senior leader at Nestlé Waters North America, where he held leadership roles in Corporate Engineering, Innovation, and R&D. With over 20 years of experience, Kevin brings deep expertise in innovation program delivery, capital investment execution, and project portfolio management. He is a Transformation Partner with Projects & Company and collaborates closely with PMI Fellows Antonio Nieto-Rodriguez and Al Zeitoun. Kevin also contributes to the Outthinker Strategy Network, helping organizations drive strategy execution, enterprise agility, and transformation in today's volatile business environment.

Topic: Enterprise Agility ≠ Agile Delivery: It's a Portfolio Management Problem

Learning Objectives:

1. Differentiate between delivery-level agility and portfolio-level agility
2. Apply portfolio management principles to improve strategy execution and innovation agility

Key Takeaways:

- Attendees will leave with a clear understanding of how to drive enterprise agility by applying portfolio management principles that
- extend their impact beyond individual projects—enabling more adaptive, aligned, and strategically relevant execution across their organization.
