

**SPRING 2023**

# **PROJECT MANAGEMENT INSTRUCTOR OPPORTUNITY**

---

Center for Professional Education and Extended Campus Custom Training at The University of Texas at Austin are seeking a highly skilled and experienced Project Management Course Instructor to join our team. As an instructor, you will be responsible for delivering engaging and informative training sessions to help course participants develop the knowledge and skills needed to plan, execute, and monitor projects effectively. You will be responsible for delivering course materials, facilitating discussions and activities, and providing feedback to course participants. This opportunity allots an average time commitment around 25-45 hours per month, dependent on semester and course offerings. The ideal candidate will have a proven track record of success in project management, as well as extensive experience in delivering training or instructional materials in a classroom or online setting. Excellent communication, interpersonal, and organizational skills are essential. A degree in business, project management, or a related field is preferred, as well as PMP certification.
