Thank you to our Sponsor, ProjectManager.

ProjectManager gives you a better way to organize, collaborate, and accelerate your team's work in a hybrid world. Start a free 30-day trial: www.projectmanager.com/pricing

SPRING 2022 PDD

The Future of Project Management

Our PDD on May 6, 2022 is both an in-person and virtual workshop experience. The in-person event is being streamed live with all interactive elements adapted for virtual attendees.

The Spring 2022 PDD features three industry thought-leaders that focus on what's needed to be a successful project manager in the future. Whether you're a seasoned or new project professional, this full day interactive journey provides you with the skills to drive change and broaden your perspective. Each of today's key topics map the Technical, Strategic, and Leadership portions of the PMI Talent Triangle, as outlined below.

PMI Austin is committed to our community and fostering professional growth for our members. We hope you expand your project leader toolkit, connect with the Austin project management community, and have fun during today's PDD!

Detailed Agenda with PDUs

8:00 am CT
Networking Breakfast
